

Annotated Bibliography Rubric and Scoring Tool:

Points earned toward final grade for annotated bibliography:

A = 10 points

The bibliography submitted properly cites all sources used. The student chose relevant and adequate resources to thoroughly research the problem of focus for the Graduation Project. The citations included in the bibliography communicate the student's ability to read, evaluate, and organize information effectively.

B = 8.5 points

The bibliography submitted properly cites most sources used. The student chose relevant and adequate resources to research the problem of focus for the Graduation Project. The citations included in the bibliography communicate the student's ability to read, evaluate, and organize information satisfactorily.

C = 7.5 points

The bibliography submitted properly cites some of the sources used, though the citations are uneven in development. The student chose relevant resources to research the problem of focus for the Graduation Project, though additional resources may have needed to be consulted. The citations included in the bibliography communicate the student's ability to read, evaluate, and organize information sufficiently.

F = ___points earned (0-6.9):

The bibliography submitted does not properly cite the sources used and/or the student did not choose relevant and/or adequate resources to research the problem of focus for the Graduation Project. The citations included in the bibliography do not communicate the student's ability to read, evaluate, and organize information sufficiently, and the bibliography requires revision.
